EXTERNAL WALLS – FACE BRICK

Mortar colour has the ability to completely change the look of a brick. Off white mortar is typically used to give a more uniform look on light colour bricks and feature darker coloured bricks.

Natural coloured mortar is more obvious on light coloured bricks, and brick catalogues, marketing images will usually show houses, and bricks, with light coloured mortar.

**NATURAL COLOURED MORTAR (LEFT) IS STANDARD
OFF WHITE MORTAR (RIGHT) IS AN UPGRADE.**

EXTERNAL WALLS – CLADDING

Cladding as per façade drawings.

Typically this is Hardies Primeline Newport for traditional weatherboard look.

Cladding is painted in any paint colour.

EXTERNAL PAINTING

Paint to external areas as per façade.

Always includes:

- Front entrance door (stain or painted)
- Eaves, Porch and Alfresco Ceiling
- Downpipes
- Rendered letter box

Can include:

- Render
- Cladding
- FC infills
- Timber posts (stain or paint)
- Gable timber (stain or paint)
- Gable FC backing
- Colonial details

Stroud use WattyL paints. Other brand/ colours can be matched if required, however, true accuracy of colour isn't guaranteed.

TOOLS & RESOURCES

Website - <https://colourdesigner.net.au>

Online colour selector on website.

WattyL Solver shops are located throughout SEQ. Refer to website for locations.

Sample pots can be purchased online. Its recommended that you test key external paint colours on a large board in different light levels to get a true sense of the colour prior to making your selection.
